Credit Transfers (Remittances)
GENERAL INFORMATION
Basic Terms Explanation

- **Basic Credit Transfer (BCT)** means any transfer of funds between customer accounts at the Bank and accounts at other banks in Greece or abroad, without any special instructions being given to the Bank.
- Based on **SEPA specifications** BCTs are considered to be credit transfers that meet the following conditions:
 1. The instruction currency and the originator and beneficiary's accounts are in Euro.
 2. The originator and beneficiary's accounts are in IBAN format.
 3. Expenses are marked "SHA".
 4. There are no special instructions for the Bank.
 5. The originator and beneficiary's banks operate in countries which participate in SEPA.
- A credit transfer is finalised as a SEPA transfer when the instruction is executed. Eurobank sends instructions via SEPA provided the specifications are met and, provided the beneficiary's bank participates in SEPA, otherwise Eurobank sends the instructions using an alternative channel.
- **BIC** (Business Identifier Code): an international standardised code that uniquely identifies the Bank anywhere in the world. It is essential to use it to identify the beneficiary's bank.
- **IBAN** (International Bank Account Number): a bank account number which has a fixed number of characters in each country (up to 34), including numbers or capital letters from the Latin alphabet. IBANs in Greece have 27 characters.
- **SHA charges**: the originator pays the originating bank's charges and the beneficiary pays the paying bank's charges. Additional expenses of intermediate banks may be charged to the beneficiary in accordance with the applicable rules. This is the recommended charging method for Basic Credit Transfers.
- **BEN charges**: This is similar to the SHA option except that the originator does not pay charges, all of which are withheld from the amount remitted to the beneficiary. BEN is only available for instructions to non-EEA countries or where the instruction currency is not an EEA country currency.
- **OUR charges**: The originator pays the Eurobank commission and the paying bank's commission.
- **The European Economic Area (EEA)** consists of the following countries:
 - **EU countries**: Austria, Belgium Bulgaria, France, Germany, Cyprus, Denmark, Greece, Estonia, Ireland, Spain, Italy, Croatia, Latvia, Lithuania, Luxembourg, Malta, Finland, the Netherlands, Hungary, Poland, Portugal, Romania, Slovenia, Slovakia, Sweden and the Czech Republic.
 - **The following countries also participate in SEPA**: the UK, Norway, Iceland, Lichtenstein, Switzerland, Monaco, San Marino, Principality of Andorra and Vatican City.
 - **Areas where EU law applies**: Martinique, Guadeloupe, French Guiana, Réunion Island, Gibraltar, the Azores, Madeira, the Canary Islands, the Åland Islands, Mayotte, Saint Barthélemy, Saint Martin, Saint Pierre and Miquelon.
- **IRIS Payments Service** is a modern way of transferring funds either to another Bank (Piraeus Bank, Alpha Bank, National Bank of Greece, Optima Bank, Cooperative Bank of Epirus L.T.D.) or as an internal transfer via Mobile App by using the mobile phone number 24 hours a day, 7 days a week. The money is credited to the beneficiary's account and is immediately available free of charge.
- **IRIS Payments Business Service** is a modern way of transferring funds from customers (Greece) without use of IBAN by crediting the company's professional account using the mobile phone number or by informing the consumer of the VAT number or with its QR code 24 hours a day, 7 days a week.
