Notes to the Interim Consolidated Financial Statements

1. General information

Eurobank S.A. (the Bank) is a wholly owned subsidiary of Eurobank Ergasias Services and Holdings S.A. (the “Parent Company”). The Bank along with its subsidiaries form the Eurobank S.A. Group (the Group) that is active in retail, corporate and private banking, asset management, treasury, capital markets, insurance and other services (note 5). The Group operates mainly in Greece and in Bulgaria, Cyprus and Luxembourg. The Bank is incorporated in Greece, with its registered office at 8 Othonos Street, Athens 105 57.

These interim unaudited consolidated financial statements were prepared pursuant to the provisions of the Commission Delegated Regulation (EU) 2019/980 regarding the financial information to be included in the Prospectus for the admission to listing and trading of all the Bank’s ordinary shares on the regulated markets of the Athens Exchange (Main Market) and the Cyprus Stock Exchange, in connection with the completion of the merger by absorption of Eurobank Holdings by the Bank (note 18.4). They were approved by the Board of Directors on 7 November 2025.

2. Basis of preparation and material accounting policies

These interim condensed consolidated financial statements have been prepared in accordance with the International Accounting Standard (IAS) 34 ‘Interim Financial Reporting’ as endorsed by the European Union (EU). The interim condensed financial statements do not include all the information and disclosures required in the annual financial statements and should be read in conjunction with the consolidated financial statements for the year ended 31 December 2024. Where necessary, comparative figures have been adjusted to conform to changes in the presentation in the current period. Unless otherwise indicated, the financial information presented in Euro has been rounded to the nearest million. The figures presented in the primary financial statements and the notes may not sum precisely to the totals provided due to rounding.

The accounting policies and methods of computation in these interim consolidated financial statements are consistent with those followed in the preparation of the consolidated financial statements for the year ended 31 December 2024, except as described below in notes 2.1 regarding new accounting developments and 2.2 regarding new activities undertaken by the Group.

Going concern considerations

Eurobank S.A. group, which comprises the major part of Eurobank Holdings’ group, has prepared its interim financial statements for the nine-month period ended 30 September 2025 on a going concern basis, taking into consideration the following:

- a) The major macroeconomic risks and uncertainties in Greece and the region for the next 12 months, including the elevated geopolitical and economic uncertainty stemming from the international and trade policy decisions of the United States government, the continued war in Ukraine, the fragile situation in the Middle East, and the tensions between major world powers affecting, among others, financial volatility, economic growth, inflation, employment, international trade, and central bank monetary policy (further information is presented in the section “Macroeconomic Outlook and Risks” of Eurobank Holdings group’s Report of the Directors for the six months ended 30 June 2025). Despite the challenging international environment, the economies of Greece, Bulgaria and Cyprus are expected to remain in expansionary territory in 2025 and 2026, overperforming most of their European Union (EU) peers. Growth in the Group’s three core markets is also underpinned by the mobilisation of the EU investment funding mainly through the Recovery and Resilience Facility (RRF), Next Generation EU (NGEU) largest instrument.
- b) The Group’s profit generation capacity and the capital adequacy of the Parent Company’s group; specifically in the period ended 30 September 2025, the net profit attributable to shareholders amounted to € 1,039 million (period ended 30 September 2024: € 1,142 million). The Group is not separately supervised for capital adequacy purposes. At 30 September 2025, following Eurobank Holdings’ issuance of € 500 million AT1 capital instruments in June 2025 (note 27), and the redemption of the € 950 million Tier 2 capital instruments in September 2025 (note 24), the Eurobank Holdings group’s total Capital Adequacy (total CAD) and Common Equity Tier 1 (CET1) ratios, including the impact of the accrual for profit payout (subject to regulatory and AGM approvals in relation to 2025 financial year), stood at 18.9% (31 December 2024: 18.2%) and 15.5% (31 December 2024: 15.4%) respectively. At 30 September 2025, the Bank’s MREL ratio at consolidated level, including the impact of the accrual for profit payout, stood at 29.2% of RWAs (31 December 2024: 27.36%) (note 4).
- c) The Eurobank Holdings Group’s liquidity position, with the Liquidity Coverage ratio (LCR) reaching 180.4% as at 30 September 2025 (31 December 2024: 188.2%). In the context of the 2025 ILAAP (Internal Liquidity Adequacy Assessment Process), the liquidity stress tests results indicate that the Bank has adequate liquidity buffer to cover the potential outflows that could occur in all scenarios regarding the short term (1 month), the 3-month and the medium-term horizon (1 year).
- d) The Group’s asset quality with the NPE ratio standing at 2.8% (31 December 2024: 2.9%, excluding the NPE covered by the Asset Protection Scheme in Cyprus (APS)), and the respective NPE coverage ratio at 94% (31 December 2024: 88.4%) (note 16).

Notes to the Interim Consolidated Financial Statements

On 22 October 2025, the General Meeting of Eurobank S.A. approved the merger between Eurobank Ergasias Services and Holdings S.A. and Eurobank S.A, the completion of which is expected in the fourth quarter of 2025, subject to the receipt of all necessary permits and approvals (note 18.4).

2.1 New and amended standards and interpretations adopted by the Group

The following amendment to existing standard as issued by the International Accounting Standards Board (IASB) and endorsed by the EU that is relevant to the Group's activities applies from 1 January 2025:

IAS 21, Amendment, Lack of Exchangeability

The amendment to IAS 21 "The Effects of Changes in Foreign Exchange Rates", specifies how an entity can determine whether a currency is exchangeable into another currency at the measurement date and when such exchangeability does not exist, how to determine the spot exchange rate to be applied. In addition, when a currency is not exchangeable an entity should disclose information that would enable users of its financial statements to understand the related effects and risks as well as the estimated rates and techniques applied.

The adoption of the amendment had no impact on the interim consolidated financial statements.

2.2 Material accounting policies

Additional Tier 1 capital instruments

The Additional Tier 1 capital instruments issued by the Group are classified as equity once there is no contractual obligation to deliver to the holders cash or another financial asset.

The incremental costs directly attributable to the issue of Additional Tier 1 capital instruments are presented in the Group's equity as a deduction from the proceeds, net of tax.

Moreover, the dividend distribution on Additional Tier 1 capital instruments is recognized as a deduction in the Group's equity on the date it is due.

Where Additional Tier 1 capital instruments, issued by the Group, are repurchased, the consideration paid including any directly attributable incremental costs (net of income taxes), is deducted from shareholders' equity. Where such instruments are subsequently sold, any consideration received is included in shareholders' equity.

3. Significant accounting estimates and judgments in applying accounting policies

In preparing these interim condensed consolidated financial statements, the significant estimates, judgments and assumptions made by Management in applying the Group's accounting policies and the key sources of estimation uncertainty are the same as those applied in the consolidated financial statements for the year ended 31 December 2024, except for those related to the expected credit losses (ECL) on loans and advances to customers, as described below.

Further information about the key assumptions and sources of estimation uncertainty is set out in notes 13, 14, 16, 18.3, 25, 28 and 30.

3.1 Impairment losses on loans and advances to customers

Despite the challenging international environment, the economies in which the Group operates are expected to retain their expansionary territory in 2025 and 2026. Moreover, in the period ended 30 September 2025, the Group's asset quality continued its solid performance, as demonstrated by the level of its credit quality indicators in terms of NPE ratio and NPE coverage (note 2).

As at 30 September 2025, the Group maintained the same probability weights of the three macroeconomic scenarios, as these were revised in June 2025. More specifically, the Group revisited the scenario weights as applied by Eurobank Bulgaria AD, in order to appropriately reflect Management's sentiment regarding future economic conditions. In addition, the Group proceeded with targeted modeling recalibrations and enhancements, as well as with the update of the key macroeconomic variables incorporated in the ECL models of the Greek and Bulgarian lending portfolios as compared to 31 December 2024.

The arithmetic averages of the key annual forecasts per macroeconomic scenario for the years 2025-2028, used in the ECL measurement of Greek lending portfolios for the period ended 30 September 2025, are set out in the following table, alongside the corresponding figures for the year ended 31 December 2024:

Notes to the Interim Consolidated Financial Statements

Additionally, the scenario weights applied by Eurobank Bulgaria AD were revised as follows: adverse 35% - base 40% - optimistic 25% (31 December 2024: 30%- 40%- 30%).

The Group continues to closely monitor all loan portfolios, so as to revise, if needed, the respective estimates and assumptions.

4. Capital Management

The Bank has sought to maintain an actively managed capital base to cover risks inherent in the business. The capital adequacy of the Bank at standalone level and that of its Parent Company, Eurobank Holdings at consolidated level are monitored for regulatory purposes using, among other measures, the rules and ratios established by the Basel Committee on Banking Supervision (BIS rules/ratios) which have been incorporated in the European Union (EU) legislation through the Directive 2013/36/EU (known as CRD IV) along with the Regulation No 575/2013/EU (known as CRR), as they are in force. The above Directive has been transposed into Greek legislation by Law 4261/2014, as in force. On 19 June 2024, Regulation 2024/1623/EU and Directive 2024/1619/EU of the European Parliament and of the Council of 31 May 2024, amending Regulation 575/2013/EU and Directive 2013/36/EU, respectively, were published in the Official Journal of the European Union. The revised CRR (CRR3- Basel IV) became, in general, applicable from 1 January 2025, with a transitional period envisaged for certain rules set out therein. EU member states will need to transpose the revised CRDIV (CRD6) into national law, to be applied from 11 January 2026. In addition, the Bank is required to meet, on a consolidated basis, certain targets in relation to minimum requirements for eligible own funds and eligible liabilities (MREL - see below).

As at 30 September 2025, the Common Equity Tier 1 (CET1) and Total Capital Adequacy (CAD) ratios of Eurobank Holdings group are 15.5% (31 December 2024: 15.4%) and 18.9% (31 December 2024: 18.2%), respectively. As at 30 September 2025, the above capital ratios include the profit attributable to the Parent Company's shareholders for the period amounting to € 1,033 million (31 December 2024: € 1,448 million) less the payout accrual of € 489 million from the period's profits in accordance with the Parent Company's Group shareholders' remuneration policy (31 December 2024: € 674 million), subject to regulatory and AGM approval. Comparative information has been adjusted accordingly to include the accrual for profit payout.

Further information on the capital position of Eurobank Holdings group on 30 September 2025 and the applicable capital requirements, is provided in note 4 of its interim consolidated financial statements for the nine months ended 30 September 2025.

Post balance sheet event

On 4 November 2025, Eurobank Holdings announced that it has successfully completed the pricing of the issuance of fixed rate reset Additional Tier 1 perpetual contingent temporary write-down notes with a nominal value of € 600 million, to be issued on 10 November 2025. On the same date, the Bank will issue notes of equivalent terms, which will be held by Eurobank Holdings (note 27).

Minimum Requirements for Eligible Own Funds and Eligible Liabilities (MREL)

Under the Directive 2014/59 (Bank Recovery and Resolution Directive) as in force, which was transposed into the Greek legislation pursuant to Law 4335/2015 as in force, European banks are required to meet the minimum requirement for own funds and eligible liabilities (MREL). The Single Resolution Board (SRB) has determined Eurobank S.A. as the Group's resolution entity and a Single Point

Notes to the Interim Consolidated Financial Statements

of Entry (SPE) strategy for resolution purposes. The applicable MREL target for Eurobank S.A. on a consolidated basis is set at 27.79% of its total risk weighted assets (RWAs), including a combined buffer requirement (CBR) of 4.30%. The MREL target is updated by the SRB on an annual basis. As at 30 September 2025, the Bank's MREL ratio at consolidated level stands at 29.20% of RWAs including profit for the period ended 30 September 2025, after deducting payout accrual (31 December 2024: 27.36%) exceeding the MREL target, as stated above. The Bank's MREL ratio at consolidated level, pro-forma with the completion of the project "Sun (ex-Solar)" stands at 29.21% of RWAs (31 December 2024: 29.37%, pro-forma with the completion of the project "Sun (ex-Solar)", projects "Leon" and "Wave VI", as well as with the Subordinated Tier 2 and senior preferred notes issued in early 2025).

In July 2025, the Parent Company announced that the Bank successfully completed the issuance of € 500 million senior preferred notes. According to Law 4172/2013 currently in force, the nominal Greek corporate tax rate for credit institutions that fall under the requirements of article 27A of Law 4172/2013 regarding eligible deferred tax assets (DTAs)/deferred tax credits (DTCs) against the Greek State is 29%. The Greek corporate tax rate for legal entities other than the aforementioned credit institutions is 22%. In addition, the withholding tax rate for dividends distributed, other than intragroup dividends, is 5%. In particular, the intragroup dividends under certain preconditions are relieved from both income and withholding tax.

The nominal corporate tax rates applicable in the banking subsidiaries incorporated in the international segment of the Group (note 5) are as follows: Bulgaria 10%, Cyprus 12.5% and Luxembourg 23.87%.

Pillar Two income taxes

The Group is subject to the top up tax under the Pillar Two legislation that introduces a global minimum effective tax rate at 15% on multinational entities with consolidated revenues over € 750 million, effective as of 1 January 2024. The Pillar Two effective tax rate is lower than 15% in respect of Group's operations in Bulgaria and Cyprus (note 5), mainly due to the nominal corporate tax rates (CIT) applying in these jurisdictions (see above). For the period ended 30 September 2025, the Group has recognized a current tax expense of € 14.6 million (30 September 2024: € 10.8 million) related to the top up tax applicable on the profits earned in the aforementioned jurisdictions.

The Group has applied a temporary mandatory relief from deferred tax accounting for the impacts on the top up tax and accounts for it as a current tax when it is incurred.

Notes to the Interim Consolidated Financial Statements
Tax certificate and open tax years

The Bank and its subsidiaries, associates and joint ventures, which operate in Greece (notes 18.1 and 19) have in principle up to 6 open tax years. For fiscal years starting from 1 January 2016 onwards, pursuant to the Tax Procedure Code, an 'Annual Tax Certificate' on an optional basis, is provided for the Greek entities, with annual financial statements audited compulsorily, which is issued after a tax audit is performed by the same statutory auditor or audit firm that audits the annual financial statements. The Bank and, as a general rule, the Group's Greek companies have opted to obtain such certificate.

The Bank's open tax years are 2022-2024. The tax certificates of the Bank and the other Group's entities, which operate in Greece, are unqualified for their open tax years until 2023. In addition, for the year ended 31 December 2024, the tax audits from external auditors are in progress.

In accordance with the Greek tax legislation and the respective Ministerial Decisions issued, additional taxes and penalties may be imposed by the Greek tax authorities following a tax audit within the applicable statute of limitations (i.e. in principle five years as from the end of the fiscal year within which the relevant tax return should have been submitted), irrespective of whether an unqualified tax certificate has been obtained from the tax paying company. In light of the above, as a general rule, the right of the Greek State to impose taxes up to tax year 2018 (included) has been time-barred for the Group's Greek entities as at 31 December 2024.

The open tax years of the foreign banking entities of the Group are as follows: (a) Eurobank Limited (former Hellenic Bank Public Company Limited), 2022-2024, (b) Eurobank Bulgaria AD, 2019-2024 and (c) Eurobank Private Bank Luxembourg S.A., 2020-2024. In addition, the open tax years of ERB Cyprus Holdings Ltd (former Eurobank Cyprus Ltd) are 2018-2024 (a tax audit for tax years 2018-2020 is in progress). The remaining foreign entities of the Group (notes 18.1 and 19), which operate in countries where a statutory tax audit is explicitly stipulated by law, have in principle up to 6 open tax years, subject to certain preconditions of the applicable tax legislation of each jurisdiction.

In reference to its total uncertain tax positions, the Group assesses all relevant developments (e.g. legislative changes, case law, ad hoc tax/legal opinions, administrative practices) and raises adequate provisions.

These temporary differences can be utilized in future periods with no specified time limit and according to current tax legislation of each jurisdiction;
- (b) € 813 million refer to losses resulted from the Group's participation in PSI+ and the Greek's state debt buyback program which are subject to amortization for tax purposes over a thirty-year period, i.e. 1/30 of losses per year starting from year 2012 onwards;
- (c) € 1,906 million refer to the unamortized part of the crystallized tax losses arising from write-offs and disposals of loans, which are subject to amortization over a twenty-year period; additionally, in accordance with the provisions of law 4831/2021, the unutilized part of the annual tax amortization of the crystallized loan losses can be carried forward for offsetting over a period of 20 years. If at the end of the 20-year utilization period, there are balances that have not been offset, these will qualify as a tax loss, which is subject to the 5-year statute of limitation.

For the period ended 30 September 2025, the deferred tax asset (DTA) recoverability assessment has been based on the three-year Business Plan of the Group of its Parent Company (mainly comprises Eurobank S.A. Group) that was approved by the Board of Directors of Eurobank Holdings in January 2025, for the period up to the end of 2027 (also submitted to the Single Supervisory Mechanism -SSM-) and certain updates of the above plan that were carried out based on the financial results of Eurobank Holdings Group for the first half of 2025 and the latest business outlook onwards. For the years beyond 2027, the forecast of operating results was based on the management projections considering the growth opportunities of the Greek and European economy, the banking sector and the Group itself.

As at 30 September 2025, pursuant to the Law 4172/2013, as in force, the Bank's eligible DTAs/deferred tax credits (DTCs) against the Greek State amounted to € 2,880 million (31 December 2024: € 3,022 million). For regulatory purposes however, the DTC included in the calculation of the Group's capital ratios stands at € 2,738 million, due to the acceleration of its amortization from 2025, as part of the Bank's initiative to enhance the quality of its regulatory capital (note 4).

Further information about the assessment of the recoverability of deferred tax assets, for DTCs against the Greek State and the tax regime in force for loan losses is provided in note 13 of the consolidated financial statements for the year ended 31 December 2024.

Real estate properties

On 16 July 2025, the Group signed a preliminary agreement with Praktiker Hellas S.A. for the sale of a portfolio of investment properties currently leased to the aforementioned company, for a total consideration of € 138 million. The sale is subject to customary procedures for real estate property transfers and is expected to be completed by year-end 2025. Accordingly, as at 30 September 2025, the underlying properties with a carrying amount of c. € 137 million, being their fair value under the Group's accounting policy for the measurement of investment properties, were classified as held for sale.

Moreover, in the context of its strategy for the active management of its real estate portfolio (investment properties, repossessed and own used properties), the Group has gradually classified as held for sale certain pools of real estate assets of total remaining carrying amount ca. € 24 million at 30 September 2025 (31 December 2024: € 33 million), after their remeasurement in accordance with the IFRS 5 requirements.

The Group remains committed to its plan to sell the aforementioned assets, which are gradually being disposed and undertakes all necessary actions towards this direction.

The above non-recurring fair value measurements were categorized as Level 3 of the fair value hierarchy due to the significance of the unobservable inputs used, with no change occurring up to 30 September 2025.

Discontinued operations

In the period ended 30 September 2025, a loss of € 5 million (€ 3.5 million net of tax) was recognised in relation to the sale of former subsidiaries of the Bank, previously presented as discontinued operations (30 September 2024: € 10 million loss (€ 7.1 million net of tax)). These losses were calculated based on specific indemnity clauses included in the relevant Sale and Purchase Agreements.

Accordingly, derivatives assets and liabilities of € 703 million and € 369 million, respectively, were offset against € 348 million cash collateral received and € 14 million cash collateral pledged (31 December 2024: € 619 million assets and € 420 million liabilities were offset against € 240 million cash collateral received and € 42 million cash collateral pledged).

As at 30 September 2025, the net carrying value of the derivatives with the Hellenic Republic amounted to a liability of € 278 million (31 December 2024: € 233 million liability).

Notes to the Interim Consolidated Financial Statements

For the period ended 30 September 2025, the Group recognized € 11.6 million losses from derivative financial instruments within net trading income/loss, of which € 11.2 million losses relate mainly to ineffectiveness of single fair value hedging relationships of fixed rate debt securities and loans, € 4.2 million losses result from fair value changes of derivatives not designated in hedge accounting relationships and € 3.8 million gains derive from the fair value changes and amortization of hedging adjustments for the group of derivatives used to hedge dynamically the interest rate risk of demand deposit and fixed rate loan portfolios, including realized gains/losses from any derivatives' terminations.

Notes to the Interim Consolidated Financial Statements

As at 30 September 2025, the Group's NPE stock and NPE ratio amounted to € 1,531 million (31 December 2024: € 1,530 million, excluding the NPE covered by the APS in Cyprus) and 2.8% (31 December 2024: 2.9%) respectively, while the NPE coverage ratio improved to 94% (31 December 2024: 88.4%).

Project Sun (ex-Solar)

In the context of its NPE management strategy, the Group had participated, since 2018, in a joint initiative with the other Greek systemic banks, to structure an NPE securitization transaction (project 'Solar') under the provisions of Hellenic Asset Protection Scheme (HAPS), that was finally abandoned in the first half of 2025. As Management remains committed to its plan to recover the carrying amount of the respective loan portfolio through its disposal, bilateral negotiations have taken place with potential investors for the sale of the same loan perimeter (project "Sun"), which are expected to conclude over the next quarters. Accordingly, the Group has retained the classification of the underlying loans as held for sale.

As at 30 September 2025, the carrying amount of Sun loan portfolio reached € 19 million, comprising loans with gross carrying amount of € 241 million and impairment allowance of € 221 million, including the additional impairment loss of € 25 million recognized in the first semester of 2025, based on estimates of the consideration expected to be received. Furthermore, the impairment allowance of the letters of guarantee included in the underlying portfolio reached € 1 million (note 25).

Other loans held for sale (including project "Leon")

In December 2023, the Group, aiming to accelerate further its NPE reduction plan, initiated the sale process of a mixed NPE loan portfolio of total gross book value ca. € 637 million and proceeded with the loans classification as held for sale.

Further to the above, in July 2024, the Group proceeded with the securitization of part of the above NPE portfolio of gross book value ca. € 0.6 billion, through its special purpose financing vehicle "LEON CAPITAL FINANCE DAC" (SPV), and the transaction complied with the requirements of Hellenic Asset Protection Scheme law.

On 13 September 2024, the Group, as the holder of the notes issued by the aforementioned SPV, disposed 95% of the mezzanine and junior tranches to a third party investor. Accordingly, as of the aforementioned date, the Group ceased to control the SPV and the related real estate company 'Leon Capital Estate Single Member S.A.', derecognized the underlying loan portfolio on the basis that it transferred substantially all risks and rewards of the portfolio's ownership and relinquished its control over it, and recognized the retained notes on its balance sheet, i.e. 100% of the senior and 5% of the mezzanine and junior notes of Leon securitization, at fair value. In April 2025, the Group obtained the HAPS approval for the senior note and in June 2025 the confirmation by ECB regarding the significant risk transfer (SRT) recognition for the "Leon" loan portfolio.

As at 30 September 2025, the remaining loan portfolio designated for sale, with a gross carrying amount of € 42 million and an equal impairment allowance, was written off in its entirety, as the Group concluded that there was no reasonable expectation of recovering the portfolio's expected cash flows.

Probability of prepayment of floating rate loans

As at 30 September 2025, the Group maintained the cumulative adjustment for the prepayment probability amounting to ca. € 135 million (31 December 2024: € 121 million), which is incorporated in the performing retail loans expected cash flows, as such was reassessed in June 2025.

Eurobank Limited agreement with KEDIPEs

In April 2025, Eurobank Limited (former Hellenic Bank) announced that it has signed a pre-settlement agreement with the Cyprus Asset Management Company Limited ("KEDIPEs") for the buyback by KEDIPEs of a portfolio of non-performing exposures, of net carrying amount € 192 million (with reference date 30 September 2024) at a consideration of € 180 million, the termination of the Asset Protection Scheme ("APS") which was granted in 2018 as part of the acquisition of a loan portfolio of the former Cyprus Cooperative Bank ("CCB") for an amount of € 17.5 million payable to Eurobank Limited, and the settlement of disputes arising from the agreement to acquire certain assets and liabilities of CCB for an amount of € 10 million payable to Eurobank Limited (the "Transaction").

In September 2025, the respective Transaction agreements between Eurobank Limited and KEDIPEs were signed, following the approvals granted by the Ministry of Finance and the Directorate-General for Competition. The Transaction is subject to customary approvals including the Cyprus Commission for the Protection of Competition and is expected to be completed early in 2026.

The non-performing loans' sale to KEDIPEs will take place via their transfer to Creditum Holdings Limited, a newly incorporated Cypriot private limited liability company, wholly owned by Eurobank Limited, which will be eventually sold to KEDIPEs (note 18.1).

Notes to the Interim Consolidated Financial Statements

Following the above, as at 30 September 2025, the Group classified the loan portfolio and the corresponding indemnification asset as a result of the APS as held for sale. The impact of the classification, which was calculated by reference to the currently estimated net consideration expected to be received from the Transaction as adjusted to reflect the loans' collections and expenses from the Transaction's reference date up to 30 September 2025, was insignificant to the Group's results.

As at 30 September 2025, the carrying amount of the aforementioned assets reached € 134 million, comprising loans with gross carrying amount of € 165 million, which carried an impairment allowance of € 42 million and indemnification asset of € 11 million (note 14).

Furthermore, as at 30 September 2025, the Bank recognized under 'Other income/(expenses)', the € 10 million receivable from KEDIPES for the settlement of the disputes arising from the agreement to acquire certain assets and liabilities of CCB.

Notes to the Interim Consolidated Financial Statements

In January 2025, the Bank announced the completion of the sale of its 8.58% holding in Demetra Holdings Plc for a cash consideration of ca. € 27 million. This transaction was part of the Bank's broader agreement with Demetra and Logicom for the acquisition of an additional 24.66% stake in Hellenic Bank.

On 13 March 2025, the Group acquired 24.34% of the total share capital (25.67% of the voting rights) of Prosperity RE Ltd for a cash consideration of € 5 million. Under the terms of the relevant subscription agreement, the Group is entitled to appoint a permanent attendee in the company's Board of Directors with no voting rights, whereas its consent is required only for specific governance, financing, or structural issues of a protective nature. Given the above, the Group has assessed that it does not have significant influence over the company and elected to designate the acquired shares at FVOCI.

For the period ended 30 September 2025, the Group proceeded with the disinvestment of debt securities of face value of € 314 million measured at amortized cost, resulting in a derecognition gain of € 19.9 million. The sale was assessed to be consistent with the held to collect business model in accordance with the Group's accounting policy.

(a) Oscar Estate EAD, Bulgaria

In March 2025, the Bank's subsidiary Eurobank Bulgaria AD acquired 100% of the shares of Oscar Estate EAD for a cash consideration of € 39.2 million. In line with IFRS 3 requirements, the acquisition was accounted for as an asset acquisition rather than a business combination, since substantially all of the fair value of the gross assets acquired was concentrated in a single identifiable asset and no substantive business processes were acquired. Accordingly, no goodwill was recognized, whereas the acquired property, along with other assets/other liabilities, were recognized in the Group's balance sheet by allocating the purchase price to the individual identifiable assets and liabilities on the basis of their relative fair values. Following the above treatment, at the acquisition date the total assets of the company amounted to € 39.3 million, of which € 31.2 million refer to own used property and € 8 million refer to investment property, while total liabilities amounted to € 0.1 million.

On 13 October 2025, Eurobank Ergasias Services and Holdings S.A. and its subsidiary, Eurobank S.A. together ("Eurobank"), announced that Eurobank Holdings has signed a term sheet with Fairfax Financial Holdings Limited ("Fairfax") pursuant to which Eurobank shall acquire 80% of the life insurance business ("Eurolife Life") (the Transaction) for a cash consideration of € 813 million. Following this acquisition, Eurobank will hold 100% of Eurolife Life and will retain its 20% interest in Eurolife Holdings' general insurance business ("Eurolife General Insurance").

Eurolife Life stands as a leading life insurer in Greece, holding a market share of c. 21%, while for 2025, it is projected to achieve gross written premiums of c. € 600 million. The Transaction will enable Eurobank to enhance its profitability base by fully consolidating Eurolife Life's financial results, further diversify its revenue streams through increased fees and commissions, and maximize the potential of its bancassurance platform.

In addition to the aforementioned Transaction, Fairfax shall procure that certain affiliates of Fairfax will acquire 45% of the share capital of ERB Asfalistiki ("ERBA"), the non-life (property and casualty) insurance company of Eurobank Limited in Cyprus, for a cash

Notes to the Interim Consolidated Financial Statements

consideration of € 59 million. Fairfax will also have the right to acquire the remaining 55% of the share capital of ERBA over time. This strategic partnership will allow both companies to combine their strengths in underwriting, risk management, and product development, driving greater operational efficiency and unlocking new market opportunities in Greece and Cyprus.

The above transactions are expected to increase Eurobank Group's fees and commissions by c. 12%, driving the contribution of asset management and insurance to total fees, in excess of 30%.

The completion of both transactions, which is expected within the first quarter of 2026, is subject to actuarial and financial due diligence, the required approvals from the relevant authorities and the process for related party transactions. Further information is available in the relevant announcement on the Bank's website.

18.2 Corporate actions in relation to Hellenic Bank group

Hellenic Bank Public Company Ltd ("Hellenic Bank"), a financial institution based in Cyprus was accounted for as a Group's associate under the equity method from April 2023 until 30 June 2024.

In June 2024, the Bank acquired an additional 26.3% holding in Hellenic Bank and also announced, pursuant to the Takeover Bids Law of 2007 of the Republic of Cyprus ("Law"), the submission of a Mandatory Takeover Bid to all shareholders of Hellenic Bank for the acquisition of up to 100% of its issued share capital. The acceptance period for the Mandatory Takeover Bid expired on 30 July 2024, eliminating any restrictions imposed by the Law on the Bank's ability to exercise its voting rights in full. Considering the provisions of the Law, the Cyprus' legal framework including the Companies Law Cap. 113, as well as the Hellenic Bank's articles of association in relation to the exercise of shareholders' rights, including the timing for convening a general meeting of the shareholders, it was assessed that the Bank acquired control over Hellenic Bank group within July, despite being the holder of 55.48% of Hellenic Bank's shares as at 30 June 2024. Accordingly, Hellenic Bank and its subsidiaries were included in the Bank's consolidated financial statements from the beginning of the third quarter of 2024. The total percentage of acceptance of the Takeover Bid reached 0.481%, giving Eurobank total participation of 55.962% in the issued share capital of Hellenic Bank.

Moreover, in November 2024, the Bank announced that: (a) it had entered into share purchase agreements with certain shareholders of the Hellenic Bank, pursuant to which it agreed to acquire an additional total holding of 37.51% in the entity, for a total consideration of ca. € 750 million, corresponding to € 4.843 per share and, (b) it would exercise its squeeze-out right to acquire any outstanding shares of Hellenic Bank and take all necessary steps for the delisting of Hellenic Bank's shares from the Cyprus Stock Exchange. In the consolidated financial statements for the year ended 31 December 2024, the above transactions, including the Bank's squeeze-out right for the acquisition of the remaining shares of Hellenic Bank, were accounted for as forward contracts at a fixed price to acquire shares in a subsidiary that are held by non-controlling interests and were deemed to provide present access to the risks & rewards of ownership of these shares to the Bank. Accordingly, as of November 2024, Hellenic Bank is included in the Group's financial statements with 100% consolidation percentage.

Detailed information regarding the consolidation of the former Hellenic Bank group is provided in note 23.2 of the consolidated financial statements for the year ended 31 December 2024.

On 11 February 2025, after the receipt of the relevant regulatory approvals, the acquisition of a total 37.51% stake in Hellenic Bank, as mentioned above, was completed resulting in the Bank's total holding in Hellenic Bank at 93.47%. The financial liability of ca. € 750 million that had respectively been recognised to reflect the Bank's unconditional obligation to deliver cash to non-controlling shareholders for the acquisition of the 37.51% stake in Hellenic Bank was settled in cash at the completion date of the transactions.

Following that and pursuant to the provisions of the Takeover Bids Law in Cyprus, the Bank also announced the submission of a Mandatory Takeover Bid to the shareholders of Hellenic Bank for the acquisition of up to 100% of the issued share capital of Hellenic Bank for a consideration of € 4.843 per share. The acceptance period of the Takeover Bid commenced on 11 March 2025 and ended on 9 April 2025.

On 25 April 2025, the Bank announced that the total percentage of acceptance of the Takeover Bid reached 4.525%, as the valid Acceptance and Transfer Forms submitted were for 18,678,262 shares of Hellenic Bank resulting in the Bank's total participation of 97.994% in the issued share capital of Hellenic Bank. Moreover, on 28 April 2025, the Bank applied to the Cyprus Securities and Exchange Commission for the exercise of the Squeeze Out right provided by Article 36 of the Takeover Bids Law, for the acquisition of the remaining shares of Hellenic Bank.

Notes to the Interim Consolidated Financial Statements

On 11 June 2025, the Bank announced the completion of the Squeeze Out procedure. It acquired the remaining 8,279,967 shares of Hellenic Bank, representing 2.006% of its issued share capital, at the price of € 4.843 per share. Following this transaction, the Bank's holding in the company's share capital reached 100%.

As of the second quarter of 2025, the fair value exercise performed by the Group to measure the identifiable assets acquired and liabilities incurred from the acquisition of Hellenic Bank has been completed, without any significant differences identified, compared to the acquisition values that were presented in the consolidated financial statements for the year ended 31 December 2024. Moreover, from 1 January 2025, the fair value adjustments that were previously included on a provisional basis within the balance sheet lines 'Other assets' and 'Other liabilities', are presented to the respective balance sheet lines they relate to.

18.3 Acquisition of CNP Cyprus Insurance Holdings Limited

On 16 April 2025, Hellenic Bank (currently Eurobank Limited) announced that following the receipt of all relevant regulatory approvals, the acquisition of CNP Cyprus Insurance Holdings Limited from CNP Assurances (the "Transaction") was completed, with a total consideration of € 182 million. As of May 2025, the acquired entity has been renamed ERB Cyprus Insurance Holdings Limited.

The acquisition of CNP Cyprus Insurance Holdings Limited and its subsidiaries (former "CNP Cyprus subgroup") was accounted for as a business combination using the purchase method of accounting, where provisional values have been applied, as a fair value exercise is in progress by the Group to measure the identifiable assets acquired and liabilities incurred and is expected to be completed no later than the one year initial measurement period from the acquisition date. During the measurement period, the Group may retrospectively adjust the provisional amounts to reflect new information obtained about facts and circumstances that existed at the acquisition date.

The following table presents the provisional values of the identifiable assets and liabilities of the former CNP Cyprus subgroup as at 31 March 2025, including provisional fair value adjustments of € 20.4 million recognized in the third quarter, which increased the net assets acquired accordingly.

⁽²⁾ net cash outflow on acquisition, after cash and cash equivalents acquired and acquisition-related costs, amounted to € 171 million.

The acquisition resulted in a provisional gain of € 58.4 million, net of acquisition-related costs of € 2.5 million, which has been recognized in 'Other income/(expenses)'. This gain is mainly attributed to the terms of the acquisition, with the total consideration being equal to former CNP Cyprus subgroup's book value as of 31 December 2023. The transaction is in line with Eurobank's strategic objective to expand in the Cypriot insurance market. The acquired entity's subsidiaries, hold a leading position in Cyprus in the insurance sector and offer life and general insurance products and services through a large network of independent agents. The Transaction is expected to further expand and strengthen the existing position of Eurobank Limited in the insurance market, increasing significantly its market share in the life and general insurance sectors.

The results of the former CNP Cyprus subgroup were incorporated in the Group's financial statements prospectively, as of 1 April 2025. For the nine month period ended 30 September 2025, former CNP Cyprus subgroup has contributed € 21 million to the Group's net revenues from international operations and € 15 million to its net profit. If the acquisition had occurred on 1 January 2025, the

Notes to the Interim Consolidated Financial Statements

- The continuation of the stock options plan originally established by Eurobank Holdings, by means of the resolution of the AGM of its shareholders dated 28 July 2020 (see below).

Share options

Under the five-year shares award plan approved in 2020 and initiated in 2021, Eurobank Holdings grants to its employees and the employees of its affiliated companies share options rights, by issuing new shares with a corresponding share capital increase upon the options' exercise. The maximum number of rights that can be exercised was set at 55,637,000 rights, each of which would correspond to one new share with exercise price equal to € 0.23. The final terms and the implementation of the share options plan, which is a forward-looking long-term incentive aiming at the retention of key executives, are defined and approved annually by the Board of Directors in accordance with the applicable legal and regulatory framework, as well as the policies of the Group.

The options are exercisable in portions annually during a period from one to five years. Each portion may be exercised wholly or partly and converted into shares at the employees' option, provided that they remain employed by the Group until the first available exercise date. Each portion is treated as a separate award with a different vesting period and different fair value. The corporate actions that adjust the number and the price of shares also adjust accordingly the share options.

In the second quarter of 2025, the Eurobank Holdings Group awarded to its executives 5,979,992 new share options, exercisable in annual portions up to 2030, out of which 2,719,083 options were exercised during the period. From the total number of granted share options exercisable in 2025, 9,002,866 options were exercised, resulting in the issue of an equal number of new common voting shares. The movement of share options during the period is analysed as follows:

28. Fair value of financial assets and liabilities

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the principal (or most advantageous) market at the measurement date under current market conditions (i.e. an exit price). When a quoted price for an identical asset or liability is not observable, fair value is measured using another valuation technique that is appropriate in the circumstances and maximizes the use of relevant observable inputs and minimizes the use of unobservable inputs. Observable inputs are developed using market data, such as publicly available information about actual events or transactions, and reflect assumptions that market participants would use when pricing financial instruments, such as quoted prices in active markets for similar instruments, interest rates and yield curves, implied volatilities and credit spreads.

The Group's financial instruments measured at fair value or at amortized cost for which fair value is disclosed are categorized into the three levels of the fair value hierarchy based on whether the inputs to the fair values are observable or unobservable, as follows:

- (a) Level 1-Financial instruments measured based on quoted prices (unadjusted) in active markets for identical financial instruments that the Group can access at the measurement date. A market is considered active when quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency and represent actually and regularly occurring transactions. Level 1 financial instruments include actively quoted debt instruments held or issued by the Group, equity and derivative instruments traded on exchanges, investment contract liabilities, as well as mutual funds that have regularly and frequently published quotes.
- (b) Level 2-Financial instruments measured using valuation techniques with inputs, other than level 1 quoted prices, that are observable either directly or indirectly, such as: i) quoted prices for similar financial instruments in active markets, ii) quoted prices for identical or similar financial instruments in markets that are not active, iii) inputs other than quoted prices that are directly or indirectly observable, mainly interest rates and yield curves observable at commonly quoted intervals, forward exchange rates, equity prices, credit spreads and implied volatilities obtained from internationally recognized market data providers and iv) other unobservable inputs which are insignificant to the entire fair value measurement. Level 2 financial instruments include over the counter (OTC) derivatives, less liquid debt instruments held or issued by the Group, investment contract liabilities and equity instruments.
- (c) Level 3-Financial instruments measured using valuation techniques with significant unobservable inputs. When developing unobservable inputs, best information available is used, including own data, while at the same time market participants' assumptions are reflected (e.g. assumptions about risk). Level 3 financial instruments include unquoted equities or equities traded in markets that are not considered active, certain OTC derivatives, loans and advances to customers including securitization notes of loan portfolios originated by the Group and recognized in financial assets and certain debt securities held or issued by the Group.

Group's valuation processes and techniques

The Group's processes and procedures governing the fair valuations are established by the Group Market Counterparty Risk Sector in line with the Group's accounting policies. The Group uses widely recognized valuation models for determining the fair value of common financial instruments that are not quoted in an active market, such as interest and cross currency swaps, that use only observable market data and require little management estimation and judgment. Specifically, observable prices or model inputs are usually available in the market for listed debt and equity securities, exchange-traded and simple over-the-counter derivatives.

Notes to the Interim Consolidated Financial Statements

Availability of observable market prices and model inputs reduces the need for management judgment and estimation and also reduces the uncertainty associated with determining fair values. For the classification of debt securities into the three levels of the fair value hierarchy, the Group also assigns a rating scale for each debt security, based on the quality and quantity of the market data inputs used to calculate its fair value at a specific date. The debt securities are then allocated into levels based on specific rating thresholds representing highly liquid to thinly traded debt securities.

Where valuation techniques are used to determine the fair values of financial instruments that are not quoted in an active market, they are validated against historical data and, where possible, against current or recent observed transactions in different instruments, and periodically reviewed by qualified personnel independent of the personnel that created them. All models are certified before they are used and models are calibrated to ensure that outputs reflect actual data and comparative market prices. Fair values' estimates obtained from models are adjusted for any other factors, such as liquidity risk or model uncertainties, to the extent that market participants would take them into account in pricing the instrument. Fair values also reflect the credit risk of the instrument and include adjustments to take account of the credit risk of the Group and the counterparty, where appropriate.

Valuation controls applied by the Group may include verification of observable pricing, re-performance of model valuations, review and approval process for new models and/or changes to models, calibration and back-testing against observable market transactions, where available, analysis of significant valuation movements, etc. Where third parties' valuations are used for fair value measurement, these are reviewed in order to ensure compliance with the requirements of IFRS 13.

The fair values of OTC derivative financial instruments are estimated by discounting expected cash flows using market interest rates at the measurement date. Counterparty credit risk adjustments and own credit risk adjustments are applied to OTC derivatives, where appropriate. Bilateral credit risk adjustments consider the expected cash flows between the Group and its counterparties under the relevant terms of the derivative instruments and the effect of the credit risk on the valuation of these cash flows. As appropriate in circumstances, the Group considers also the effect of any credit risk mitigating arrangements, including collateral agreements and master netting agreements on the calculation of credit risk valuation adjustments (CVAs). CVA calculation uses probabilities of default (PDs) based on observable market data such as credit default swaps (CDS) spreads, where appropriate, or based on internal rating models. The Group applies similar methodology for the calculation of debit-value-adjustments (DVAs), when applicable. Where valuation techniques are based on internal rating models and the relevant CVA is significant to the entire fair value measurement, such derivative instruments are categorized as Level 3 in the fair value hierarchy. A reasonably possible change in the main unobservable input (i.e. the recovery rate), used in their valuation, would not have a significant effect on their fair value measurement.

The Group determines fair values for debt securities held using quoted market prices in active markets for securities with similar credit risk, maturity and yield, quoted market prices in non active markets for identical or similar financial instruments, or using discounted cash flows method.

Unquoted equity instruments at FVTPL, included in Level 3, are estimated using mainly (i) third parties' valuation reports based on investees' net assets, where management does not perform any further significant adjustments, and (ii) net assets' valuations, adjusted where considered necessary.

Loans and advances to customers including securitization notes of loan portfolios originated by the Group with contractual cash flows that do not represent solely payments of principal and interest (SPPI failures), are measured mandatorily at fair value through profit or loss. Quoted market prices are not available as there are no active markets where these instruments are traded. Their fair values are estimated on an individual loan basis by discounting the future expected cash flows over the time period they are expected to be recovered, using an appropriate discount rate or by reference to other comparable assets of the same type that have been transacted during a recent time period. Expected cash flows, which incorporate credit risk, represent significant unobservable input in the valuation and as such, the entire fair value measurement is categorized as Level 3 in the fair value hierarchy.

The fair values of investment contract liabilities are determined by reference to the financial assets held within the relevant investment portfolios linked to the financial liabilities.

Financial instruments not measured at fair value

The following tables present the carrying amounts and fair values of the Group's financial assets and liabilities which are not carried at fair value on the balance sheet:

30 September 2025	
Carrying amount	Fair value
€ million	€ million
Loans and advances to customers	52,857
Investment securities at amortised cost	19,298
Financial assets not measured at fair value	72,155

Financial liabilities not measured at fair value	7,423

31 December 2024	
Carrying amount ⁽¹⁾	Fair value
€ million	€ million
Loans and advances to customers	50,934
Investment securities at amortised cost	17,651
Financial assets not measured at fair value	68,585
Debt securities in issue	7,057
Financial liabilities not measured at fair value	7,057

⁽¹⁾ In the comparative period, provisional fair value adjustments resulting from the acquisition of Hellenic Bank (note 18.2), are not reflected in the carrying amount of the acquired financial assets and liabilities.

The assumptions and methodologies underlying the calculation of fair values of financial instruments not measured at fair value, are in line with those used to calculate the fair values for financial instruments measured at fair value. Particularly:

- Loans and advances to customers including securitization notes of loan portfolios originated by the Group: quoted market prices are not available as there are no active markets where these instruments are traded. The fair values are estimated by discounting future expected cash flows over the time period they are expected to be recovered, using appropriate risk-adjusted rates (i.e., discounted expected cash flows technique). More specifically, loans to customers are grouped into homogenous assets with similar characteristics, as monitored by Management, such as lending business unit, products' characteristics, and performing/nonperforming status, in order to improve the accuracy of the estimated valuation outputs. In estimating the future cash flows of lending portfolios, the Group makes assumptions on expected prepayments, products' spreads over risk-free interest rates, where applicable. The discount rates applied for the discounting of loans' expected cash flows incorporate inputs that would be taken into account by independent market participants, such as risk-free interest rates, expected credit losses, cost of equity requirements and funding. For credit impaired-loans, the timing of collateral realization is taken into account for the estimation of the future cash flows which are discounted by non-credit risk adjusted rates. In addition, the fair value of securitization senior notes of loan portfolios originated by the Group is estimated by discounting the expected cash flows using appropriate market interest rates of other comparable assets with similar quality and duration;
- Investment securities measured at amortized cost: the fair values are determined using prices quoted in an active market when these are available. In other cases, fair values are determined using quoted market prices for securities with similar credit risk, maturity and yield, quoted market prices in non active markets for identical or similar financial instruments, or by using the discounted cash flows method. In addition, for certain high quality corporate bonds for which quoted prices are not available, fair value is determined using prices that are derived from reliable data management platforms while part of them is verified by market participants (e.g. brokers). In certain cases, prices are implied by liquidity agreements (e.g. repos, pledges) with other financial institutions; and
- Debt securities in issue: the fair values are determined using quoted market prices, if available. If quoted prices are not available, fair values are determined based on third party valuations, quotes for similar debt securities or by discounting the expected cash flows at a risk-adjusted rate, where the Group's own credit risk is determined using inputs indirectly observable, i.e. quoted prices of similar securities issued by the Group or other Greek issuers.

Notes to the Interim Consolidated Financial Statements

For other financial instruments, which are short term or re-price at frequent intervals (cash and balances with central banks, due from credit institutions, due to central banks, due to credit institutions and due to customers), the carrying amounts represent reasonable approximations of fair values.

Other commitments

The Bank has signed irrevocable payment commitment (IPC) and collateral arrangement agreements with the Single Resolution Board (SRB) amounting in total to € 29 million as at 30 September 2025 (31 December 2024: € 29 million), which are backed by cash collateral of an equal amount. The IPC has been accounted for as a contingent liability and the said cash collateral has been recognized as a financial asset measured at amortized cost in the Group's balance sheet line "Other assets" (note 21).

In January 2024, an appeal to the European Court of Justice has been lodged by a French credit institution against the ruling of the General Court of the European Union, which dismissed the appeal of the credit institution in respect of the rejection by the SRB of its request for return of collateral linked to ex-ante contributions provided in the form of IPC.

The Group has not proceeded to any change in the accounting treatment described above for the purposes of these financial statements, considering that the above decision of the General Court of the European Union is not final and monitors any developments in the case in order to assess the potential impact on its financial statements. Further information is provided in note 43 of the consolidated financial statements for the year ended 31 December 2024.

Legal proceedings

As at 30 September 2025, the provisions for legal proceedings outstanding against the Group amounted to € 36 million (note 25). As at 31 December 2024, the Group had recognized respective provisions of € 33 million and contingent liabilities at a provisional fair value of € 4 million on the acquisition of Hellenic Bank group (note 18.2).

Furthermore, in the normal course of its business, the Group has been involved in a number of legal proceedings, which are either at still a premature or at an advanced trial instance. The final settlement of these cases may require the lapse of a certain time so that the litigants exhaust the legal remedies provided for by the law. Management, is closely monitoring the developments to the relevant cases and having considered the advice of Legal Services, does not expect that there will be an outflow of resources and therefore does not acknowledge the need for a provision.
