

Sustainable Investment Framework

Committed to being transparent about our ESG approach, we developed our Sustainable Investment Framework (“the Framework”), which is applicable to our banking book bond portfolio and outlines Eurobank’s sustainable classification process and approaches (and the application thereof) for the selection of eligible investments and the monitoring of the Bank’s sustainable bond portfolio (which is part of the Bank’s investment portfolio).

The Bank implements the following selection approaches or a combination thereof:

- Exclusionary criteria approach
- Sustainable Bonds approach
- Best-in-class approach
- Thematic investments approach

Aiming to integrate all latest market practices and comply with any regulatory requirements, the Bank constantly monitors all latest sustainable investing developments so as to safeguard the soundness of its Framework.
