

PRESS RELEASE

Top distinction for sustainable financing by Global Finance

Eurobank is the first Greek bank to be awarded, for the second consecutive year, the prestigious **Best Bank for Sustainable Finance in Greece 2024** distinction by the internationally renowned Global Finance magazine, ranking it among the best performing banks in sustainable financing worldwide.

This new distinction underlines the Bank's commitment to ESG best practices by focusing on **sustainable financing** initiatives designed **to mitigate the impact of the climate change and shape a sustainable future** for everyone.

This important recognition takes on particular significance as the demand for sustainable investments accelerates internationally. In this climate, Eurobank has a remarkable performance, reinforcing its strong, qualitative and reliable presence in the market.

The winners of this year's awards are banks selected globally based on criteria for assessing their corporate governance policies and objectives, as well as their measurable achievements in financing environmental and social sustainability. The nominees' selection was based on the magazine's editors' assessment which identified the winners along with independent research.

The Bank actively participates in internationally renowned ESG assessments to highlight the continuous improvement of its environmental, social and governance performance, upgrading the relevant disclosures and further enhancing the confidence of the investment community in its practices.
