Athens, June 11, 2025

PRESS RELEASE

Eurobank Research | Leading in Economic Forecasts for Greece and Cyprus

The **Economic Analysis and Research Unit of Eurobank** (**Eurobank Research**) has maintained its **1st place** for the second consecutive year in overall macroeconomic forecasts for Greece. This year, it also reaches the **top spot** in Cyprus at the **Focus Economics Analyst Forecast Awards (2025)**.

With consistency and scientific rigor at its core, Eurobank Research remains among the **top forecasters** across all key markets it monitors, holding a prominent position in forecasts for **Bulgaria and China** as well. Under the leadership of **Eurobank Group's Chief Economist, Dr. Tasos Anastasatos**, the Unit stood out among international financial institutions, credit rating agencies, insurance companies, and large banks, reaffirming **Eurobank's commitment to providing well-documented and reliable macroeconomic analysis**.

Eurobank Research Distinctions at the Focus Economics Analyst Forecast Awards 2025

According to this year's results from **Focus Economics**, a leading provider of economic analyses for **198 countries**:

- **Greece | 1st place** in overall macroeconomic forecasts for the **second consecutive year** – a **notable achievement** in the history of the awards.
  - **3rd place** in GDP forecasts.
  - **2nd place** in Inflation forecasts.

- **Cyprus | 1st place** in overall macroeconomic forecasts – **for the first time**, confirming the **expanding analytical and forecasting competence of Eurobank Research**.
  - **2nd place in GDP forecasts.**
  - **1st place in Fiscal Balance forecasts.**

- **Bulgaria | 3rd place** in Fiscal Balance forecasts, confirming **deep economic expertise** also in this region of special interest.

- **China | 3rd place** in Fiscal Balance forecasts – **a remarkable achievement** for a Greek bank to be among the **top forecasters** in a country of **global economic significance**, surpassing major international institutions and strengthening **Eurobank Research's presence in global economic analysis**.

*The **Focus Economics Analyst Forecast Awards** annually recognize the **accuracy of economic forecasts** across six key macroeconomic indicators: GDP, Fiscal Balance, Inflation, Interest Rate, Exchange Rate, and Current Account Balance.*
