PRESS RELEASE

TIME places Eurobank among the World's Best Companies in Sustainable Growth 2025

Eurobank secured a place among the **top 500 companies** in the world that stood out in the field of sustainable development through its inclusion in the international list "**World's Best Companies in Sustainable Growth 2025**" compiled by TIME magazine. Eurobank managed to obtain the **highest score** among the three Greek companies that were included in this list, confirming its leading position and commitment to best sustainable business practices.

The **World's Best Companies in Sustainable Growth 2025 list compiled by TIME**, in partnership with **Statista**, the world's global data collection platform, based on a new methodology to identify and highlight companies around the world that demonstrated **outstanding financial and environmental performance**. The evaluation took into consideration a **series of criteria** considering revenue growth data, financial stability indicators, as well as environmental impact data.

Eurobank's inclusion among the 500 companies around the world that stood out as top performers in sustainable development acknowledges its strategy to adopt and promote sustainable business practices, while strengthening its position as a pioneer in responsible banking and highlighting its continued progress in the field of sustainable development.

It should also be noted that in recent years, the Bank consistently excels in internationally renowned Sustainability rating agencies due to the continuous improvement of its environmental, social and governance performance as well as the enhancement of its pertinent disclosures.
