FOCUS NOTES

Greece: January – August 2017 State Budget Execution, General Government Arrears & 2018 Draft Budget

Dr Theodoros Stamatiou Senior Economist tstamatiou@eurobank.gr

- According to the final State Budget Execution data for January August 2017, the budget balance recorded a deficit of ca €1.27 bn, ca €0.04 bn lower relatively to the respective Medium Term 2018-21 (MTFS) target (deficit of ≤ 1.23 bn). The primary balance recorded a surplus of ca ≤ 3.54 bn, underperforming the MTFS target by €0.03 bn (primary surplus of €3.57 bn). Ordinary Budget net revenue and direct taxes under-performed their MTFS targets by €1.77 bn, and €1.39 bn respectively. Indirect taxes over-performed their MTFS targets by €0.32 bn. Ordinary expenditure stood at €31.12 bn, undershooting the respective MTFS target by €1.44 bn.
- In more detail, ordinary budget net revenue for January August 2017 (Fig.1) amounted to ca €30.24 bn, lower by €1.77 bn (or -5.5%) compared to the respective MTFS target but €0.26 bn (or 0.9%) above the corresponding 2016 figure.
- Total tax revenue under-performed by ca €1.12 bn (or -3.9%) the respective MTFS target. Direct taxes revenue fell short by -11.3% of the respective MTFS target, mainly on the back of the underperformance of revenue from the personal (-8.5%) and corporate taxes (-7.4%) and revenue from other income taxes (-4.0%) and other direct taxes (-8.7%), compared to the respective MTFSFs targets. Revenue from property taxes fell short of the respective MTFS target as by - 4.4% of GDP mainly as a result of the change in due date for the first installment of the ENFIA at the end of September from end of August previously. On the other hand, revenue direct tax arrears exceeded the MTSF target by 10.9%. Regarding indirect taxes, total VAT revenue exceeded the MTFS target by 2.2%. On a similar positive note, VAT revenue from tobacco and VAT revenue from all other goods exceeded the respective MTFS target by 0.6% and 3.1%. On the flip side, VAT revenue on fuel and consumption taxes revenue were 1.0% and 1.3% lower relative to the respective MTFS target. Privatization revenues came in at €0.97 bn, lower by €0.35 bn (or 26.3%) compared to the respective MTFS target. Tax refunds stood at €2.57 bn (or 22.4%) higher relative to the respective MTFS target. Non-tax revenue outperformed their MTFS target by 2.3% mainly as a result of the higher than expected Bank of Greece dividend.
- Ordinary budget expenditure (Fig.1) for January-August 2017 amounted to ca €31.12 bn, undershooting both the respective MTFS target by ca €1.18 (or -3.7%), and the respective 2016 figure by ca €1.44 bn (or -4.4%). Primary spending was lower by -4.4% compared to the respective MTFS target.
- Public Investment Budget (PIB) total revenue for January-August 2017 amounted to ca €1.19 bn, €0.02 bn higher (or 1.4%) compared to the respective MTFS target but lower by €0.88 bn (or -42.4%) relative to the respective 2016 realization. PIB total expenditure amounted to ca €1.58 bn, lower compared to both the respective MTFS target (by €0.52 bn or -24.7%) and the respective 2016 realization (by €0.59 bn or -27.1%).
- According to the Ministry of Finance, total General Government (GG) arrears at the end of August 2017 (including tax arrears of €2.11 bn) stood at €6.03 bn up from €5.44 bn in the previous month, recording a monthly increase of 10.9%. This increase was mainly due to the increase of tax refund arrears by €0.59 bn. The remaining categories of tax arrears remained almost unchanged on a monthly basis.

Key takeaway

The January-August 2017 adjusted primary balance (APB) (Fig.2) registered a surplus of just €2.80 bn increased by €0.50 bn on a monthly basis and €1.28 bn higher compared to the MTFS primary balance target (Table 1). We expect that tax revenues over the next few months will contribute to the achievement of the GG primary balance programme target for 2017 which according to the Draft 2018 Budget was revised upwards to 2.2% of GDP (from 1.75% of GDP earlier). However, the delay in the clearance of GG arrears creates a risk for the timely disbursement of the next sub-tranche (€0.80 bn) from the loan tranche under the 2nd review of the 3rd Economic Adjustment Programme (June 2017). If this is not done by October 31 2017, then the €0.80 bn earmarked for the second sub-tranche will be returned to the general ESM programme budget and the ESM Board Members will need to convene anew to approve their release.

According to the 2018 Draft Budget, the primary surplus for 2017 and 2018 is expected at 2.2% and 3.6% (vs 3rd programme targets of of 1.75 and 3.5% of GDP). Ordinary budget revenue for 2017 and 2018 was revised downwards by €1.86 bn and €0.58 bn respectively compared to the corresponding MTFS targets (Box 1) as a result of the lower than previously expected direct taxes revenue. Ordinary budget expenditure for 2018 and 2019 was revised downwards by €0.59 bn and €0.50 bn respectively. On the general government level, the revised upwards revenue from the newly funded Single Security Fund for Professionals and Freelancers (EFKA) - is expected to contribute significantly to the achievement of the 2017 and 2018 primary surplus targets (increase of €0.02 bn and €1.36 bn for 2017 and 2018 compared to the respective MTFS targets). On the negative side, the 2018 Draft Budget assumes real GDP growth rates of 1.8% and 2.4% for 2017 and 2017 while the current market consensus for the aforementioned variables is at 1.1% and 1.9% (Focus Economics, October 2017) respectively.
