I.
Deposit Products
GENERAL INFORMATION
Euro-denominated Deposits

- **Interest Calculation Start Date:** (a) Savings / Current Accounts / Sight Accounts: Same day (Interest accrual for special clientele such as Hospitals, Banks, EEC, Public Entities: 1 working day), (b) Incoming Credit Transfers (Remittances): Same day
- **Interest Calculation End Date:** The day before cash withdrawal.
- **Debit Rate:** 10,6% (including the Law 128/1975 levy). The Escrow Account TAA has debit rate 0%.
- **Interest Computation Basis:** (a) No. of days in a year: 365, (b) No. of days in a month: 30/31
- **Interest Payment Date:** (a) 12 interest periods per year: 1st working day of next month, (b) 2 interest periods per year: 1/1 and 1/7 each year
- **Tiered split balance:** An interest rate that differs in each tier meaning that a different rate applies to the deposited amount in each tier.
- **Tiered whole balance:** An interest rate which differs depending on the overall size of the deposit and applies to the whole amount.
- **Annual Actual Total Return (AATR):** calculated on the assumption that for 1 year the amount deposited and the interest rate remain unchanged and compound interest for the 6-month period (or one month in the cases of monthly compounding) is not withdrawn. As a result, the Annual Actual Total Return is calculated after taxing interest at a rate of 15% and applying 6-month compound interest (or monthly compound interest if the product is compounded monthly).
- Interest earned is subject to tax at a rate of 15%. The Escrow Account TAA is excluded of tax.

FX deposits

- **EEA (European Economic Area) countries:** Bulgaria BGN, Denmark DKK, Great Britain GBP, Norway NOK, Hungary HUF, Poland PLN, Romania RON, Sweden SEK, Czech Republic CZK, Iceland ISK, Lichtenstein CHF.
- **Interest Calculation Start Date:** (a) Deposit in same EEA currency: Savings Accounts / Current Accounts / Sight Accounts: Same day (Interest accrual for special clientele such as Hospitals, Banks, EEC, Public Entities: 1 working day), (b) Deposit in same non-EEA currency: Savings / Current Accounts / Sight Accounts: 4 working days for cash deposits, (c) Deposit in different currency (EEA / non-EEA): Savings / Current Accounts / Sight Accounts: 4 working days for cash deposits,
- **Interest Calculation End Date:** The day before cash withdrawal.
- **Debit Rate:** The debit interest rate of the correspondent by Currency. In the event that there is no available debit interest rate from the correspondent, or it is zero, the marginal lending facility rate of the Central Bank of the respective Currency's country will apply, and if that is also unavailable, the interbank lending rate that corresponds to the prevailing conditions in the interbank market for each Currency will apply.
- **Interest Computation Basis:** (a) No. of days in a year: 360 Exceptions: the GBP, ZAR, SGD, PLN and RUB currencies which use a 365 day year as the basis of calculation.
(b) No. of days in a month: 30/31
- **Interest Payment Date:** (a) 12 interest periods per year: 1st working day of next month, (b) 2 interest periods per year: 1/1 and 1/7 each year
- **Annual Actual Total Return (AATR):** calculated on the assumption that for 1 year the amount deposited and the interest rate remain unchanged and compound interest for the 6-month period (or one month in the cases of monthly compounding) is not withdrawn. As a result, the Annual Actual Total Return is calculated after taxing interest at a rate of 15% and applying 6-month compound interest (or monthly compound interest if the product is compounded monthly).
- Interest earned is subject to tax at a rate of 15%.

Time Deposits

- **Interest computation basis:** A 360-day year.
- **Interest rates:** set depending on the product, amount, currency or duration of the time deposit and whether the deposit is opened in-branch or using e-Banking. Interest rates are set daily which is why they are notified by branch staff or via e-Banking to customers for time deposits opened through e-Banking channel. Collateral Time Deposits use the Euribor rate that corresponds to the term of the time deposit (for example if the time deposit is for 3 months, the Euribor 3M rate on the date the deposit is opened applies).
- **Early repayment:** Early partial or total repayment of time deposit in Euro involves the loss of an amount that may not exceed all accrued interest up to the date of early repayment and is calculated as follows: a) **"Time Deposit for All" / Time deposit «Global Markets» (it is addressed to a specific customer base of Legal Entities):** Amount of early

repayment x 1,50% x days remaining to maturity / 360 days. b) **"Flexible Time Deposit" / Time Deposit for Pensionaires and Public Sector Employees:** Depending on the product, interests from the beginning of the interest period within which early repayment is carried out up to and including repayment or interest of the first X periods of interest, and if such repayment is made during those periods, interests from the beginning of the deposit until the repayment.

- **Adding Capital:** available for the following accounts: "Start", "For your Benefit", "Add Deduct" Time Deposits and "Flexible Time Deposit". The maximum amount of capital that can be added is 30% of the Time Deposit's initial* or current **capital, if that figure is lower, subject to a minimum amount of €5.000 per addition for the "Start" Time Deposit, and a minimum of €1.000 or multiples thereof for the "For Your Benefit" Time Deposit and the "Add Deduct" Time Deposit. The maximum amount of capital that can be added is 50% of the Time Deposit's initial or current **capital, if that figure is lower, subject to a minimum amount of €1.000 or multiples thereof for the "Going Up Plus" Time Deposit. For 6-month "For Your Benefit" Time Deposits and for 6-month "Going Up Plus" Time Deposits: The maximum amount of capital that can be added is €200.000, subject to a minimum of €5.000 per addition, and multiples of €1.000 thereafter. With regards to the Flexible Time Deposit, the amount of added capital must be multiples of €1.000. The minimum added capital amount shall be €3.000 while the maximum added capital amount shall be up to 100% of the initial deposited amount, with a maximum cap of €200.000 total deposits amount or, if it has been reduced, of the remaining balance as at the time of capital addition. The capital addition can be effected on a monthly basis for durations of 3/6/12 months and every quarter for the 24-month duration, on the date of interest payment only. If amounts are added or deducted, the interest rates and interest periods agreed at the start of the time deposit remain unchanged until the time deposit matures. New interest is calculated on the capital resulting from each addition or deduction of capital.
- **Time Deposit's Initial Capital:** The capital at the start of the deposit.
- **Time Deposit's Current Capital:** The deposit capital as it stands after the start of the deposit, equal to the sum of the initial capital and any amounts added to it, less the sum of any amounts which have been deducted due to early redemption. Interest earned is subject to tax at a rate of 15%.
